Classic Decor

FUNCTIONAL BED MATERIAL.

The head of the bed is a solid wood frame, and the bottom is backed by high-density environmental protection sponge (the sheet is treated with special technology, which is anti-moth, anti-mildew, and pressure-resistant)

Surface material: leather (genuine leather/artificial leather/PVC)

A complete set of neat metal accessories

The thickened poplar skeleton supports the mattress, and the four-legs below are all long steel pipes instead of ordinary small iron pieces, which makes the bed more solid

The bedside material is high-density medium fiberboard, which has strong toughness and good hardness. The surface drilling is very smooth, and it is not lint-free or loose.
